

Flight Instructor

We are looking for a Flight Instructor in Germany and France with a SEP or MEP rating.

The Flight Instructor performs flight instruction and together with international team colleagues looks after the timely delivery of the training program, safety standards and professional training quality.

Your tasks

- Perform flight training (SEP/MEP) for students in both airplanes and simulators, including necessary pre- and post-flight briefings
- Complete training records and grading within an appropriate system
- Participate in training reviews as required
- Participate in standardization meetings as required
- Perform duties as a Theoretical Knowledge Instructor as required

Your profile

- Profound experience as a Flight Instructor
- Ideally teaching experience within a registered flight academy (ATO)
- Excellent English skills (preferably Level 5 or 6)
- EASA Commercial Pilot License CPL (A) with valid SEP or MEP and associated Instrument Rating
- EASA Flight Instructor FI (A) rating with preferably IR FI extension
- FI (A) Restricted Privileges may be accepted for the PPL part of the CPL phase
- Medical Class 1

We offer

- Extensive training period
- Working in international teams
- Dealing with complex topics and solutions in the field of aeronautics
- A responsible position with excellent development opportunities

Does this sound like you? Then we are looking forward to receive your application.

Equal opportunity

As an equal opportunity employer, we are committed to filling vacancies fairly and consistently, fostering a culture of diversity. For ease of readability, we may use the masculine form in our job descriptions; however, this naturally applies to all genders.
